

IB NETS Project
Reflection Instructions

In a well-crafted five paragraph essay:

1. Evaluate your product/solution in an objective manner.
2. Evaluate its impact on life, society and/or the environment.
3. Explain how the product/solution could be improved as a result of these evaluations.
4. Evaluate your own performance at each stage of the design cycle (Investigate, Design, Plan, Create, and Evaluate). Suggest ways in which your performance could be improved.

In addition:

1. Review the IB NETS standards document and focus on how your product/solution fulfills ONE of the five standards outlined in this document.

Minimum length, 1 ½ pages, double-spaced, MLA format.
