

REFLECTION

VISUAL DESIGN PROJECT

Now that you have completed your Rose Window, Quilt design, or Mandala, it's time to evaluate and reflect upon your development and your process of working. You will need to write a *Reflective Essay* that addresses and enlarges upon each of the following points:

1. Analyze and evaluate the quality of the work you have produced. Go into detail about what makes it a quality piece of work and what areas need improvement.
2. Throughout your project you have received feedback and evaluation from your teacher and other students. Describe this feedback in detail and explain how you used it while working on your final piece.
3. Each of the genres of art we looked at arose in a different culture. Explain how working on this project has affected your view of your own culture and the culture of the Rose Window, Quilt, or Mandala. If your chosen style developed in multiple cultures, describe how it developed and how you responded to it.
4. Describe your self-motivation, initiative, and willingness to take artistic risks as it relates to your final artwork.
5. How were you able to take into account the views of other students while you worked? How did you support and encourage your peers?

When you have completed your essay, email it as an attachment to Ms. Mitchell. Make sure you have your name, your class and period number, and today's date in the upper left hand corner.
